

## Clear, Refreshing Solutions

The water and wastewater team at Manhard Consulting has been solving water-related problems for years. Our in-house team provides end-to-end services including system evaluation, planning, design, permitting, funding, start-up services, rate setting, operations assistance, contract operations and more. We'll take your water-wastewater project from start to finish, and look for innovative ways to save you time, money and headaches along the way.

By partnering with Manhard, you get an experienced team that understands water and wastewater issues at every level: at the source, in the community, and as part of a balanced, sustainable environment. Now there's a refreshing thought.

For communities dealing with limited access to water, depleted aquifers and widespread drought, the Manhard team can provide solutions to improve water quality—as well as quality of life.
